

Cybersecurity Risk Register for AGENTTRUST LIMITED

Prepared By: Umar Pharooqq

Date: July 12, 2026

Executive Summary

This Risk Register was developed to identify, assess, and manage cybersecurity risks affecting AGENTTRUST LIMITED. It provides a structured approach to evaluating threats, vulnerabilities, impacts, and mitigation strategies.

Risk Assessment Methodology

Likelihood: Low (1), Medium (2), High (3)

Impact: Low (1), Medium (2), High (3)

Risk Score = Likelihood × Impact

Cybersecurity Risk Register

R001 Unauthorized Access to Web Server - Score 9 (High)

R002 Credential Theft - Score 9 (High)

R003 Customer Data Breach - Score 6 (High)

R004 Malware Infection - Score 6 (High)

R005 Phishing Attacks - Score 6 (High)

R006 Cross-Site Scripting (XSS) - Score 4 (Medium)

R007 Ransomware Attack - Score 6 (High)

R008 Service Disruption - Score 4 (Medium)

Detailed Risk Treatment Register

R001 – Unauthorized Access to Web Server

Mitigation: Security patches, vulnerability scanning, restricted admin access, daily log monitoring.

R002 – Credential Theft

Mitigation: Strong passwords, MFA, account lockout policy, awareness training.

R003 – Customer Data Breach

Mitigation: Least privilege, quarterly reviews, monitoring, remove unnecessary admin accounts.

R004 – Malware Infection

Mitigation: Patch management, endpoint protection, monthly scans.

R005 – Phishing Attacks

Mitigation: Security awareness training, email filtering, phishing simulations.

R006 – Cross-Site Scripting (XSS)

Mitigation: Input validation, secure coding, code reviews, security testing.

R007 – Ransomware Attack

Mitigation: Offline backups, restoration testing, restricted file sharing.

R008 – Service Disruption

Mitigation: Redundancy, disaster recovery procedures, continuity testing.

Risk Treatment Summary

Total Risks: 8

High Risks: 6

Medium Risks: 2

Low Risks: 0

Overall Risk Posture: Moderate to High

Conclusion

AGENTTRUST LIMITED should continuously review risks, perform vulnerability assessments, and update mitigation strategies to strengthen its cybersecurity posture.
